

# The REVO - It couldn't be more simple!

## Description

The revolutionary magnetic loading system simplifies the process installing a graphic into the stand. It eliminates the fear of removing the pin prematurely and requiring the stand to be taken apart to fix the tension. The REVO is like a cartridge system allowing graphics to be easily interchanged. With the simple turn of a key, tension is applied. By pressing a button, the tension can be retracted. Our system is versatile and most importantly simple.

## Specifications

Finish	Silver or Black
Width	34"
Height	32" - 94"
Weight	11 lbs.
Graphic Area	33.5" x 32" - 94"
Media Thickness	Max 10 mil

## Advantages

-  Magnetic Loading
-  Adjustable Tension
-  Adjustable Height
-  Clamp Top Rail
-  Magnetic Base Connect
-  \*Lifetime Warranty

### Lifetime Warranty

Professional Image guarantees the quality and function against defects in materials and/or workmanship when used as designed.
